ABOUT THE INSTITUTE

Technocrats Institute of Technology (Excellence), Bhopal, is one of the premier institutes of Madhya Pradesh. This is an educational institute which is known in central India for imparting quality & value-based education since 2007. This institute was started with a clear vision to develop the institute into a center of excellence in engineering education in the country with global standards. The institute is affiliated to Rajiv Gandhi Technical University, Bhopal for engineering program. The institute is located in Anand Nagar, Raisen Road, Bhopal.

The institute offers six courses at undergraduate level leading to bachelor's degree, B.Tech. in Electronics & Communication Engineering, Computer Science & Engineering, Civil Engineering, Electrical Engineering, Mechanical Engineering and CSE (Artificial Intelligence & Machine Learning) disciplines. Apart from these courses, institute also offers admissions in master's degree, M.Tech. in Computer Science & Engineering, Construction Technology & Management and CSE (Artificial Intelligence & Machine Learning), Master of Computer Application (MCA) & Master of Business Administration (MBA). Presently the total intake is 600 in UG courses and 450 in PG courses.

Seminar on Entrepreneurship skills on Computational fluid dynamics By Mr.Satish Asnani BHEL, Bhopal

Date:23-04-2019

The seminar on Entrepreneurship Skills in Computational Fluid Dynamics (CFD) conducted by Mr. Satish Asnani aimed to explore the intersection of engineering innovation and entrepreneurship in the field of fluid dynamics. Mr. Asnani, a seasoned professional with expertise in CFD, shared insights into how individuals can leverage their technical knowledge to create entrepreneurial opportunities in this specialized domain.

Mr. Satish Asnani provided an overview of CFD, explaining its principles, methodologies, and applications in various industries such as aerospace, automotive, energy, and manufacturing. Participants gained a foundational understanding of how CFD simulations are used to analyze fluid flow phenomena and optimize engineering designs.

The seminar explored the entrepreneurial landscape in CFD, highlighting the demand for specialized expertise in simulation and modelling. Mr. Asnani discussed the various opportunities for entrepreneurs, including consulting services, software development, niche product development, and research collaborations with industries.

Mr. Asnani presented case studies and success stories of entrepreneurs who have successfully leveraged their CFD expertise to establish thriving businesses. These real-life examples showcased the diverse applications of CFD in solving complex engineering challenges and creating value for clients and stakeholders.

Participants learned about the essential entrepreneurial skills needed to translate CFD expertise into viable business ventures. Topics such as market research, business planning, customer acquisition, and intellectual property protection were discussed, highlighting the importance of a holistic approach to entrepreneurship.
