Seminar on Introduction to Research Methodologies and Importance in Modern Global Economic Environment by Dr. Preeti D. Swami, Prof. ECE Department, UIT, RGPV,

The workshop on Introduction to Research Methodologies and Importance in Modern Global Economic Environment, led by Dr. P.S. Lokhande, aimed to equip participants with essential knowledge and skills to conduct research effectively in the contemporary economic landscape. Dr. Lokhande, an experienced academician from Government Engineering College, Amravati University, and M.E. (IT) from VESIT, University of Mumbai, provided valuable insights into research methodologies and their significance in addressing global economic challenges.

The workshop explored the complexities of the modern global economic environment, including trends, challenges, and opportunities in areas such as globalization, trade, finance, technology, and sustainability. Dr. Lokhande discussed the role of research in understanding and navigating these dynamics and shaping policy responses.

Dr. Lokhande emphasized the importance of research ethics and integrity in maintaining the credibility and validity of research outcomes. Participants learned about ethical considerations in research, including informed consent, confidentiality, plagiarism, and conflicts of interest, and the importance of adhering to ethical principles throughout the research process. Participants had the opportunity to apply research methodologies to real-world scenarios, share their experiences and insights, and collaborate with peers on research projects.

Seminar on Research Trends in Transformers & Switchgears Testings by Mr. J. Santosh, Additional Director & Unit Head (CPRI) ,Govind Pura, Raisen Road, Bhopal

Date: 17 -10-2019

The seminar on Research Trends in Transformers & Switchgears Testing, conducted by Mr. J. Santosh, Additional Director & Unit Head at CPRI (Central Power Research Institute), Govind Pura, Raisen Road, Bhopal, aimed to provide insights into the latest research and developments in testing methodologies for transformers and switchgears. Mr. Santosh, a renowned expert in the field of power systems testing and evaluation, shared valuable knowledge and expertise with the participants.

Mr. J. Santosh provided an overview of testing methodologies and standards for transformers and switchgears used in electrical power systems. Participants gained insights into the importance of testing in ensuring the performance, reliability, and safety of these critical components in power transmission and distribution networks.

The seminar explored emerging research trends and developments in transformers and switchgears testing, including advancements in diagnostic techniques, condition monitoring, insulation testing, and online monitoring systems. Mr. Santosh discussed the latest innovations aimed at enhancing the efficiency and resilience of power equipment in diverse operating conditions.

Mr. Santosh shared examples of successful testing projects, highlighting the application of advanced testing methodologies and technologies to address specific challenges faced by utilities and industries.

ABOUT THE INSTITUTE

Technocrats Institute of Technology (Excellence), Bhopal, is one of the premier institutes of Madhya Pradesh. This is an educational institute which is known in central India for imparting quality & value-based education since 2007. This institute was started with a clear vision to develop the institute into a center of excellence in engineering education in the country with global standards. The institute is affiliated to Rajiv Gandhi Technical University, Bhopal for engineering program. The institute is located in Anand Nagar, Raisen Road, Bhopal.

The institute offers six courses at undergraduate level leading to bachelor's degree: B.Tech. in Electronics & Communication Engineering, Civil Engineering, Computer Science & Engineering, Mechanical Engineering, Electrical Engineering, and CSE (Artificial Intelligence & Machine Learning) disciplines. Apart from these courses, institute also offers admissions in master's degree, M.Tech. in Computer Science & Engineering, Construction Technology & Management and CSE (Artificial Intelligence & Machine Learning), Master of Computer Applications (MCA) & Master of Business Administration (MBA). Presently the total intake is 600 in UG courses and 450 in PG courses.

Seminar on Research trends in Energy Conservation through Renewable Energy Converters by Mr. Nikhil Kaushik, A faculty in Petroleum Conservation and Research Association (PCRA), Bhopal

The seminar on Research Trends in Energy Conservation through Renewable Energy Converters, led by Mr. Nikhil Kaushik, a faculty member at the Petroleum Conservation and Research Association (PCRA) in Bhopal, aimed to explore the latest research and developments in renewable energy technologies for promoting energy conservation. Mr. Kaushik, an expert in the field of renewable energy, shared valuable insights into innovative approaches and emerging trends in energy conversion and conservation.

Mr. Nikhil Kaushik provided an overview of energy conservation principles and the role of renewable energy converters in harnessing energy from natural sources such as solar, wind, hydro, and biomass. Participants gained insights into the importance of transitioning towards renewable energy sources for achieving energy security and environmental sustainability.

Participants learned about the integration of renewable energy systems with conventional energy infrastructure, grid integration challenges, and energy storage solutions. Mr. Kaushik discussed the importance of smart grid technologies, demand-side management, and energy-efficient practices in maximizing the benefits of renewable energy converters and minimizing environmental impacts.

Workshop on Emerging Research topics in Engineering Dr Rahul Dubey MITS Gwalior

The workshop on Emerging Research Topics in Engineering conducted at Technocrats Institute of Technology Excellence aimed to familiarize students and faculty with the latest trends and advancements in various engineering disciplines. Dr. Rahul Dubey, a distinguished faculty member from Madhav Institute of Technology and Science (MITS), Gwalior, led the workshop, sharing insights into cutting-edge research areas and future prospects in engineering.

Dr. Rahul Dubey delivered a keynote address, providing an overview of emerging research topics and their significance in addressing contemporary challenges. He highlighted the importance of interdisciplinary research and emphasized the role of engineering in driving technological innovation and societal development.

Participants engaged in interactive sessions and panel discussions led by Dr. Rahul Dubey and other invited experts. These sessions provided opportunities for in-depth discussions, knowledge sharing, and exchange of ideas on research methodologies, challenges, and future directions in engineering research.

The workshop facilitated networking and collaboration opportunities among participants, encouraging interdisciplinary collaborations and research partnerships. Participants were encouraged to explore collaborative research projects and seek mentorship from experienced researchers.

ABOUT THE INSTITUTE

Technocrats Institute of Technology (Excellence), Bhopal, is one of the premier institutes of Madhya Pradesh. This is an educational institute which is known in central India for imparting quality & value-based education since 2007. This institute was started with a clear vision to develop the institute into a center of excellence in engineering education in the country with global standards. The institute is affiliated to Rajiv Gandhi Technical University, Bhopal for engineering program. The institute is located in Anand Nagar, Raisen Road, Bhopal.

The institute offers six courses at undergraduate level leading to bachelor's degree, B.Tech. in Electronics & Communication Engineering, Computer Science & Engineering, Civil Engineering, Electrical Engineering, Mechanical Engineering and CSE (Artificial Intelligence & Machine Learning) disciplines. Apart from these courses, institute also offers admissions in master's degree, M.Tech. in Computer Science & Engineering, Construction Technology & Management and CSE (Artificial Intelligence & Machine Learning). Master of Computer Application, Master of Business Administration (MBA) & the total intake is 600 in these courses.

Workshop on "Research in Cyber security in Everyday Life" By Mr. TT Harish, Honorary Chair Member, National Cyber Defence Research Center, Chennai.

The workshop on "Research in Cyber security in Everyday Life," conducted by Mr. TT Harish, Honorary Chair Member of the National Cyber Defence Research Center in Chennai, aimed to raise awareness and provide insights into the importance of cybersecurity in everyday life. Mr. Harish, a renowned expert in cyber security research, shared valuable knowledge and practical strategies to help participants protect themselves and their organizations from cyber threats.

Mr. TT Harish provided an overview of cyber security threats prevalent in everyday life, including malware, phishing, social engineering, ransom ware, and identity theft. Participants gained insights into the tactics and techniques used by cybercriminals to exploit vulnerabilities and compromise security.

Participants received practical guidance and strategies for defending against cyber threats in everyday life. Mr. Harish shared tips for securing devices, protecting personal data, identifying phishing attempts, and practicing safe online behavior. Participants learned about the importance of regular software updates, strong passwords, and data encryption in maintaining cyber security.

Seminar on Recent research Design of Smart System Using IOT Cloud and Data Analytics by Prof. Nilay Khare, MANIT, Bhopal

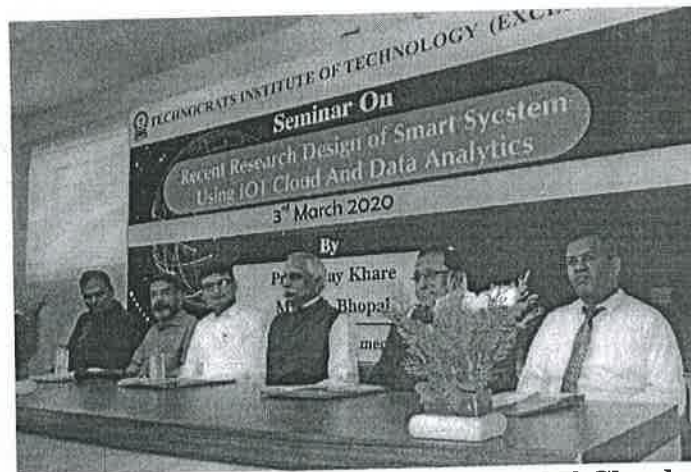

Date: 3-03-2020

The seminar on Recent Research Design of Smart Systems Using IoT, Cloud, and Data Analytics, led by Prof. Nilay Khare from MANIT (Maulana Azad National Institute of Technology), Bhopal, aimed to explore the latest advancements and research trends in developing smart systems leveraging IoT (Internet of Things), cloud computing, and data analytics technologies. Prof. Khare, an expert in IoT and data analytics, shared valuable insights and practical examples to illustrate the potential and applications of smart systems in various domains.

Prof. Nilay Khare provided an overview of smart systems and their underlying technologies, focusing on IoT devices, sensors, actuators, and communication protocols. Participants gained insights into the architecture and components of smart systems and their role in enabling intelligent decision-making and automation.

Participants learned about the importance of data analytics in deriving actionable insights from IoT-generated data. Prof. Khare discussed data processing techniques, machine learning algorithms, and predictive analytics models for analyzing and interpreting IoT data streams. Real-world examples and case studies demonstrated the value of data analytics in optimizing smart system performance and efficiency.

The seminar highlighted recent research trends and innovations in the design of smart systems, including edge computing, AI (Artificial Intelligence) integration, block chain technology, and cyber security solutions. Prof. Khare discussed ongoing research projects and emerging technologies that are shaping the future of smart systems and IOT applications.
